

Passkey Announces Partnership with Passageways' OnBoard All Farm Credit Members Receive an **Exclusive 10% Discount***

The Next Generation Board Meeting Software Solution

OnBoard is next generation board meeting software that drives good governance and improves meeting outcomes. A board portal with the tools every director needs to focus on strategy during their next meeting. Board management software that's designed to make preparing board books a seamless experience.

There's no complex login processes. With just your fingerprint, you'll be in. It's intuitive and accessible, designed to put what's important front and center – your upcoming meetings and board books.

OnBoard is Engineered For Directors & Administrators

OnBoard makes meetings more than operational presentations, it turns them into strategic working sessions. With OnBoard, meetings become more productive, board book access becomes amazingly intuitive, archives are readily accessible, votes can easily be taken, and minutes entered – all so you have time to devote to thoughtful deliberations.

Learn More About OnBoard >

“ I found Passageways' OnBoard easy to use and the best bang for your buck when it came down to pricing. It also works on all devices like computer, phones, and in the cloud, plus it has various tools that boards will find helpful. When looking at all the various board management providers and comparing them, OnBoard stood out as the top choice for the Farm Credit system. ”

“We had struggled for years trying to find a secure, efficient way to disseminate board packets. Then we discovered OnBoard, an affordable way to securely share information with our board members. We love ability to update the packets as new information becomes available rather than waiting to publish until all information is in hand. OnBoard has made the process of delivering information to our board members much easier, safer and dynamic.”

Jimmy Chambers
Chief Executive Officer
