

Kenya Maritime Authority

Staying Organized and Focused with OnBoard Creates a Culture of Success

CASE STUDY

Printing, assembling, copying, and distributing their 200-page board books proved a demanding process for Kenya Maritime Authority.

KMA implemented Passageways OnBoard to resolve the challenges of creating paper board books and assist their directors in organizing meetings. OnBoard made the creation and

OnBoard solved KMA's creation, distribution, and meeting challenges, savings 80,000 a year in printing, shipping, and bindings costs.

CHALLENGE

KMA relied on paper, preparing their board book around a very large table, hoping last minute changes wouldn't arrive. Yet, often those changes were unavoidable. Printing, assembling, copying, and distributing their 200-page board books proved a demanding process. Once in a meeting, directors needed a better way to stay organized. A way to avoid floating through dozens of pages, a way to keep everyone on track. KMA began a search for a board portal solution, to solve distributional challenges and keep their meetings focused.

RESULTS

OnBoard solved KMA's creation, distribution, and meeting challenges. They plan to expand OnBoard's use to include executive committee meetings, savings KES 80,000 a year in printing, shipping, and bindings costs. KMA continues to strive for the highest as they endeavour through many more board meetings with ease.

SOLUTION

KMA implemented Passageways OnBoard to resolve the challenges of creating paper board books and assist their directors in organizing meetings. OnBoard made the creation and distribution of their board books as simple as a few clicks of the mouse. Previous meetings were used as a template to quickly build out new agendas, and board books were seamlessly uploaded to their directors. The solution allowed for immediate updates, ensuring all the board members had the latest versions of all their documents.

With OnBoard they all intuitively understood how to use it. Their meetings became more organized and focused through OnBoard's powerful search and annotation features. They stayed on the same page through presenter mode, as one individual helped guide the meeting. And when questions concerning previous meetings arose, they were able to quickly look back at documents without needing to dig through a pile of paper to find a single item.

About Us

OnBoard is truly the world's only third generation board portal solution. A true multi-device capable mobile platform, collaboration enhancing, highly integrated, meeting productivity tool that puts all these capabilities in the hands of directors with an extremely intuitive, easy to jump in and learn user interface. And unlike older board portals, OnBoard can be test driven with a free, no strings attached, full feature trial. The leap from print or the first generation of digital to the 3rd generation leader, OnBoard, has never been easier.
